APRIL 2017

OUR VERY FIRST ISSUE!

COME HOME TO ASKI GLOBAL!

In commemoration of ASKI Philippines' 30th anniversary as well as ASKI Global's 7 years here in Singapore, we would like to invite back all our students, graduates, and volunteers to come join us for our April event!

We have prepared a fun-filled and informative session for all of you: lectures on social insurance and social investment, updates from the management, booths selling food and trinkets such as handmade accessories, games with prizes to be won, and performances by ASKI Global alumni.

So remember to save the date and come join us:

ASKI GLOBAL MOVING FORWARD WITH NEW PARTNERSHIPS

2017 is the start of something new for ASKI Global Limited, as we forged new partnerships with various institutions that believe in the same vision and mission.

The biggest coup for ASKI Global was being given the greenlight to partner with Foreign Domestic Worker Association for Social Support and Training (FAST). Under this new partnership, ASKI Global is certified as an official training provider for the 25,000 members of FAST.

Another partnership to highlight is with LBC Express. As their new marketing arm, ASKlans now have the option of ordering *balikbayan* boxes directly from the office. On our end, 50 training scholarships are being raffled off, as well as the commitment to conduct training for their employees.

Aside from the two organisations, we are also fortunate to tie up with other companies such as Philippine National Bank (PNB), HealthServe, and Centurion Corporation Limited as well as churches Paya Lebar Methodist Church and Prinsep Street Presbyterian Church.

It is only 4 months into the new year but ASKI Global has gotten so much blessings. Here's to greater things to come!

A FRUITFUL MEETING WITH THE PHILIPPINE EMBASSY

Thank you Ambassador Antonio Morales and the embassy officials for pledging your continued support towards ASKI Global. *Maraming salamat po sa inyo!*

PEOPLE OF ASKI GLOBAL SG: LORNA LAASA ROCHA

"I started my agribusiness with the intention of teaching my family that they cannot depend on my salary," she explained. Previously, Lorna often had to request her employer to advance her salary so that she can remit money back home. Eventually, she decided this has to stop. <https://goo.gl/uH0uWC>
